## DCIOProductpartners.com

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the mutual fund prospectuses/summary prospectuses, which can be obtained from a financial professional, and should be read carefully before investing. Important information about objectives, risks, charges and expenses for collective investment trusts is contained in the Characteristics Statement, which can be obtained from participants' plan provider or employer.

This content, developed by Capital Group, home of American Funds, should not be used as a primary basis for investment decisions and is not intended to serve as impartial investment or fiduciary advice.

Although the target date portfolios are managed for investors on a projected retirement date time frame, the allocation strategy does not guarantee that investors' retirement goals will be met. Investment professionals manage the portfolio, moving it from a more growth-oriented strategy to a more income-oriented focus as the target date gets closer. The target date is the year that corresponds roughly to the year in which an investor is assumed to retire and begin taking withdrawals. Investment professionals continue to manage each AFTD portfolio for approximately 30 years after it reaches its target date.

Collective Investment Trusts (CITs) are available for investment only to certain qualified retirement plans.

All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. All other company and product names mentioned are the property of their respective companies.

Variable annuities may impose a variety of fees that may affect the growth of your client's portfolio. Variable annuities have investment and/or withdrawal limitation requirements. Early withdrawals may incur a fee. Guarantees are subject to the claims-paying ability of the issuing insurance company..
