| Total | | <u>\$36,730</u> | <u>\$—⁴</u> | <u>.00%¹²</u> |

¹Security did not produce income during the last 12 months.

²Acquired in a transaction exempt from registration under Rule 144A or, for commercial paper, Section 4(a)(2) of the Securities Act of 1933. May be resold in the U.S. in transactions exempt from registration, normally to qualified institutional buyers. The total value of all such securities was \$32,304,000, which represented 2.35% of the net assets of the fund.

³Value determined using significant unobservable inputs.

⁴Amount less than one thousand.

⁵Cost and market value do not include prior distributions to the fund from income or proceeds realized from securities held by the private equity fund. Therefore, the cost and market value may not be indicative of the private equity fund's performance. For private equity funds structured as limited partnerships, shares are not applicable and therefore the fund's interest in the partnership is reported.

⁶Excludes an unfunded capital commitment representing an agreement which obligates the fund to meet capital calls in the future. Capital calls can only be made if and when certain requirements have been fulfilled; thus, the timing and the amount of such capital calls cannot readily be determined.

⁷Restricted security, other than Rule 144A securities or commercial paper issued pursuant to Section 4(a)(2) of the Securities Act of 1933. The total value of all such restricted securities was less than \$1,000, which represented less than .01% of the net assets of the fund.

⁸Rate represents the seven-day yield at 6/30/2024.

⁹Part of the same "group of investment companies" as the fund as defined under the Investment Company Act of 1940, as amended.

¹⁰Represents net activity. Refer to Note 5 for more information on securities lending.

¹¹Dividend income is included with securities lending income in the fund's statement of operations and is not shown in this table.

¹²Amount less than .01%.

Key to abbreviation(s)

ADR = American Depositary Receipts

GDR = Global Depositary Receipts

REIT = Real Estate Investment Trust

Notes to financial statements

1. Organization

Emerging Markets Growth Fund, Inc. (the “fund”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end, diversified management investment company. The fund seeks long-term growth of capital.

The fund has three share classes consisting of two retail share classes (Classes M and F-3), and one retirement plan share class (Class R-6). The retirement plan share class is generally offered only through eligible employer-sponsored retirement plans. The fund’s share classes are described further in the following table:

| Share class | Initial sales charge | Contingent deferred sales charge upon redemption | Conversion feature |
|--------------------|----------------------|--|--------------------|
| Classes M* and F-3 | None | None | None |
| Class R-6 | None | None | None |

*Class M shares of the fund are not available for purchase.

Holders of all share classes have equal pro rata rights to the assets, dividends and liquidation proceeds of the fund. Each share class has identical voting rights, except for the exclusive right to vote on matters affecting only its class. Share classes have different fees and expenses (“class-specific fees and expenses”), primarily due to different arrangements for distribution, transfer agent and administrative services. Differences in class-specific fees and expenses will result in differences in net investment income and, therefore, the payment of different per-share dividends by each share class.

2. Significant accounting policies

The fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board. The fund’s financial statements have been prepared to comply with U.S. generally accepted accounting principles (“U.S. GAAP”). These principles require the fund’s investment adviser to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates. Subsequent events, if any, have been evaluated through the date of issuance in the preparation of the financial statements. The fund follows the significant accounting policies described in this section, as well as the valuation policies described in the next section on valuation.

Security transactions and related investment income – Security transactions are recorded by the fund as of the date the trades are executed with brokers. Realized gains and losses from security transactions are determined based on the specific identified cost of the securities. In the event a security is purchased with a delayed payment date, the fund will segregate liquid assets sufficient to meet its payment obligations. Dividend income is recognized on the ex-dividend date and interest income is recognized on an accrual basis. Market discounts, premiums and original issue discounts on fixed-income securities are amortized daily over the expected life of the security.

Class allocations – Income, fees and expenses (other than class-specific fees and expenses), realized gains and losses and unrealized appreciation and depreciation are allocated daily among the various share classes based on their relative net assets. Class-specific fees and expenses, such as distribution, transfer agent and administrative services, are charged directly to the respective share class.

Distributions paid to shareholders – Income dividends and capital gain distributions are recorded on the ex-dividend date.

Currency translation – Assets and liabilities, including investment securities, denominated in currencies other than U.S. dollars are translated into U.S. dollars at the exchange rates supplied by one or more pricing vendors on the valuation date. Purchases and sales of investment securities and income and expenses are translated into U.S. dollars at the exchange rates on the dates of such transactions. The effects of changes in exchange rates on investment securities are included with the net realized gain or loss and net unrealized appreciation or depreciation on investments in the fund’s statement of operations. The realized gain or loss and unrealized appreciation or depreciation resulting from all other transactions denominated in currencies other than U.S. dollars are disclosed separately.

3. Valuation

Capital International, Inc. (“CIInc”), the fund’s investment adviser, values the fund’s investments at fair value as defined by U.S. GAAP. The net asset value per share is calculated once daily as of the close of regular trading on the New York Stock Exchange, normally 4 p.m. New York time, each day the New York Stock Exchange is open.

Methods and inputs – The fund’s investment adviser uses the following methods and inputs to establish the fair value of the fund’s assets and liabilities. Use of particular methods and inputs may vary over time based on availability and relevance as market and economic conditions evolve.

Equity securities, including depositary receipts, are generally valued at the official closing price of, or the last reported sale price on, the exchange or market on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price. Prices for each security are taken from the principal exchange or market on which the security trades.

Fixed-income securities, including short-term securities, are generally valued at evaluated prices obtained from third-party pricing vendors. Vendors value such securities based on one or more of the inputs described in the following table. The table provides examples of inputs that are commonly relevant for valuing particular classes of fixed-income securities in which the fund is authorized to invest. However, these classifications are not exclusive, and any of the inputs may be used to value any other class of fixed-income security.

| Fixed-income class | Examples of standard inputs |
|--|---|
| All | Benchmark yields, transactions, bids, offers, quotations from dealers and trading systems, new issues, spreads and other relationships observed in the markets among comparable securities; and proprietary pricing models such as yield measures calculated using factors such as cash flows, financial or collateral performance and other reference data (collectively referred to as “standard inputs”) |
| Corporate bonds, notes & loans; convertible securities | Standard inputs and underlying equity of the issuer |
| Bonds & notes of governments & government agencies | Standard inputs and interest rate volatilities |

Securities with both fixed-income and equity characteristics, or equity securities traded principally among fixed-income dealers, are generally valued in the manner described for either equity or fixed-income securities, depending on which method is deemed most appropriate by the fund’s investment adviser. The Capital Group Central Cash Fund (“CCF”), a fund within the Capital Group Central Fund Series (“Central Funds”), is valued based upon a floating net asset value, which fluctuates with changes in the value of CCF’s portfolio securities. The underlying securities are valued based on the policies and procedures in CCF’s statement of additional information.

Securities and other assets for which representative market quotations are not readily available or are considered unreliable by the fund’s investment adviser are fair valued as determined in good faith under fair valuation guidelines adopted by the fund’s investment adviser and approved by the board of directors as further described. The investment adviser follows fair valuation guidelines, consistent with U.S. Securities and Exchange Commission rules and guidance, to consider relevant principles and factors when making fair value determinations. The investment adviser considers relevant indications of value that are reasonably and timely available to it in determining the fair value to be assigned to a particular security, such as the type and cost of the security, restrictions on resale of the security, relevant financial or business developments of the issuer, actively traded similar or related securities, dealer or broker quotes, conversion or exchange rights on the security, related corporate actions, significant events occurring after the close of trading in the security, and changes in overall market conditions. In addition, the closing prices of equity securities that trade in markets outside U.S. time zones may be adjusted to reflect significant events that occur after the close of local trading but before the net asset value of each share class of the fund is determined. Fair valuations of investments that are not actively trading involve judgment and may differ materially from valuations that would have been used had greater market activity occurred.

Processes and structure – The fund’s board of directors has designated the fund’s investment adviser to make fair value determinations, subject to board oversight. The investment adviser has established a Joint Fair Valuation Committee (the “Committee”) to administer, implement and oversee the fair valuation process and to make fair value decisions. The Committee regularly reviews its own fair value decisions, as well as decisions made under its standing instructions to the investment adviser’s valuation team. The Committee reviews changes in fair value measurements from period to period, pricing vendor information and market data, and may, as deemed appropriate, update the fair valuation guidelines to better reflect the results of back testing and address new or evolving issues. Pricing decisions, processes and controls over security valuation are also subject to additional internal reviews facilitated by the investment adviser’s global risk management group. The Committee reports changes to the fair valuation guidelines to the board of directors. The fund’s board and audit committee also regularly review reports that describe fair value determinations and methods.

Classifications – The fund’s investment adviser classifies the fund’s assets and liabilities into three levels based on the inputs used to value the assets or liabilities. Level 1 values are based on quoted prices in active markets for identical securities. Level 2 values are based on significant observable market inputs, such as quoted prices for similar securities and quoted prices in inactive markets. Certain securities trading outside the U.S. may transfer between Level 1 and Level 2 due to valuation adjustments resulting from significant market movements following the close of local trading. Level 3 values are based on significant unobservable inputs that reflect the investment adviser’s determination of assumptions that market participants might reasonably use in valuing the securities. The valuation levels are not necessarily an indication of the risk or liquidity associated with the underlying investment. For example, U.S. government securities are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market. The following table presents the fund’s valuation levels as of June 30, 2024 (dollars in thousands):

| | Investment securities | | | Total |
|--------------------------------|-----------------------|------------------|--------------|--------------------|
| | Level 1 | Level 2 | Level 3 | |
| Assets: | | | | |
| Common stocks: | | | | |
| Asia-Pacific | \$162,913 | \$917,293 | \$ – | \$1,080,206 |
| Latin America | 154,265 | – | –* | 154,265 |
| Other markets | 26,314 | 6,521 | 388 | 33,223 |
| Eastern Europe and Middle East | – | 31,070 | –* | 31,070 |
| Africa | – | 26,139 | – | 26,139 |
| Preferred securities | – | 8,865 | – | 8,865 |
| Rights & warrants | – | 2,871 | – | 2,871 |
| Short-term securities | 36,179 | – | – | 36,179 |
| Total | <u>\$379,671</u> | <u>\$992,759</u> | <u>\$388</u> | <u>\$1,372,818</u> |

*Amount less than one thousand.

4. Risk factors

Investing in the fund may involve certain risks including, but not limited to, those described below.

Market conditions – The prices of, and the income generated by, the common stocks and other securities held by the fund may decline – sometimes rapidly or unpredictably – due to various factors, including events or conditions affecting the general economy or particular industries or companies; overall market changes; local, regional or global political, social or economic instability; governmental, governmental agency or central bank responses to economic conditions; changes in inflation rates; and currency exchange rate, interest rate and commodity price fluctuations.

Economies and financial markets throughout the world are highly interconnected. Economic, financial or political events, trading and tariff arrangements, wars, terrorism, cybersecurity events, natural disasters, public health emergencies (such as the spread of infectious disease), bank failures and other circumstances in one country or region, including actions taken by governmental or quasi-governmental authorities in response to any of the foregoing, could have impacts on global economies or markets. As a result, whether or not the fund invests in securities of issuers located in or with significant exposure to the countries affected, the value and liquidity of the fund’s investments may be negatively affected by developments in other countries and regions.

Issuer risks – The prices of, and the income generated by, securities held by the fund may decline in response to various factors directly related to the issuers of such securities, including reduced demand for an issuer’s goods or services, poor management performance, major litigation, investigations or other controversies related to the issuer, changes in the issuer’s financial condition or credit rating, changes in government regulations affecting the issuer or its competitive environment and strategic initiatives such as mergers, acquisitions or dispositions and the market response to any such initiatives. An individual security may also be affected by factors relating to the industry or sector of the issuer or the securities markets as a whole, and conversely an industry or sector or the securities markets may be affected by a change in financial condition or other event affecting a single issuer.

Investing outside the U.S. – Securities of issuers domiciled outside the U.S. or with significant operations or revenues outside the U.S., and securities tied economically to countries outside the U.S., may lose value because of adverse political, social, economic or market developments (including social instability, regional conflicts, terrorism and war) in the countries or regions in which the issuers are domiciled, operate or generate revenue or to which the securities are tied economically. These securities may also lose value due to changes in foreign currency exchange rates against the U.S. dollar and/or currencies of other countries. Issuers of these securities may be more susceptible to actions of foreign governments, such as nationalization, currency blockage or the imposition of price controls, sanctions, or punitive taxes, each of which could adversely impact the value of these securities. Securities markets in certain countries may be more volatile and/or less liquid than those in the U.S. Investments outside the U.S. may also be subject to different regulatory, legal, accounting, auditing, financial reporting and recordkeeping requirements, and may be more difficult to value, than those in the U.S. In addition, the value of investments outside the U.S. may be reduced by foreign taxes, including foreign withholding taxes on interest and dividends. Further, there may be increased risks of delayed settlement of securities purchased or sold by the fund, which could impact the liquidity of the fund's portfolio. The risks of investing outside the U.S. may be heightened in connection with investments in developing countries.

Investing in developing countries – Investing in countries with developing economies and/or markets may involve risks in addition to and greater than those generally associated with investing in the securities markets of developed countries. For instance, developing countries tend to have less developed political, economic and legal systems than those in developed countries. Accordingly, the governments of these countries may be less stable and more likely to intervene in the market economy, for example, by imposing capital controls, nationalizing a company or industry, placing restrictions on foreign ownership and on withdrawing sale proceeds of securities from the country, and/or imposing punitive taxes that could adversely affect the prices of securities. Information regarding issuers in developing countries may be limited, incomplete or inaccurate, and such issuers may not be subject to regulatory, accounting, auditing, and financial reporting and recordkeeping standards comparable to those to which issuers in developed countries are subject. The fund's rights with respect to its investments in developing countries, if any, will generally be governed by local law, which may make it difficult or impossible for the fund to pursue legal remedies or to obtain and enforce judgments in local courts. In addition, the economies of these countries may be dependent on relatively few industries, may have limited access to capital and may be more susceptible to changes in local and global trade conditions and downturns in the world economy. Securities markets in these countries can also be relatively small and have substantially lower trading volumes. As a result, securities issued in these countries may be more volatile and less liquid, more vulnerable to market manipulation, and more difficult to value, than securities issued in countries with more developed economies and/or markets. Less certainty with respect to security valuations may lead to additional challenges and risks in calculating the fund's net asset value. Additionally, developing countries are more likely to experience problems with the clearing and settling of trades and the holding of securities by banks, agents and depositories that are less established than those in developed countries.

Exposure to country, region, industry or sector – Subject to the fund's investment limitations, the fund may have significant exposure to a particular country, region, industry or sector. Such exposure may cause the fund to be more impacted by risks relating to and developments affecting the country, region, industry or sector, and thus its net asset value may be more volatile, than a fund without such levels of exposure. For example, if the fund has significant exposure in a particular country, then social, economic, regulatory or other issues that negatively affect that country may have a greater impact on the fund than on a fund that is more geographically diversified.

Investing in growth-oriented stocks – Growth-oriented common stocks and other equity-type securities (such as preferred stocks, convertible preferred stocks and convertible bonds) may involve larger price swings and greater potential for loss than other types of investments. These risks may be even greater in the case of smaller capitalization stocks.

Investing in small companies – Investing in smaller companies may pose additional risks. For example, it is often more difficult to value or dispose of small company stocks and more difficult to obtain information about smaller companies than about larger companies. Furthermore, smaller companies often have limited product lines, operating histories, markets and/or financial resources, may be dependent on one or a few key persons for management, and can be more susceptible to losses. Moreover, the prices of their stocks may be more volatile than stocks of larger, more established companies, particularly during times of market turmoil.

Investing in depositary receipts – Depositary receipts are securities that evidence ownership interests in, and represent the right to receive, a security or a pool of securities that have been deposited with a bank or trust depository. Such securities may be less liquid or may trade at a lower price than the underlying securities of the issuer. Additionally, receipt of corporate information about the underlying issuer and proxy disclosure may not be timely and there may not be a correlation between such information and the market value of the depositary receipts.

Management – The investment adviser to the fund actively manages the fund's investments. Consequently, the fund is subject to the risk that the methods and analyses, including models, tools and data, employed by the investment adviser in this process may be flawed or incorrect and may not produce the desired results. This could cause the fund to lose value or its investment results to lag relevant benchmarks or other funds with similar objectives.

5. Certain investment techniques

Securities lending – The fund has entered into securities lending transactions in which the fund earns income by lending investment securities to brokers, dealers or other institutions. Each transaction involves three parties: the fund, acting as the lender of the securities, a borrower, and a lending agent that acts as an intermediary.

Securities lending transactions are entered into by the fund under a securities lending agent agreement with the lending agent. The lending agent facilitates the exchange of securities between the fund and approved borrowers, ensures that securities loans are properly coordinated and documented, marks-to-market the value of collateral daily, secures additional collateral from a borrower if it falls below preset terms, and may reinvest cash collateral on behalf of the fund according to agreed parameters. The lending agent provides indemnification to the fund against losses resulting from a borrower default. Although risk is mitigated by the collateral and indemnification, the fund could experience a delay in recovering its securities and a potential loss of income or value if a borrower fails to return securities, collateral investments decline in value or the lending agent fails to perform.

The borrower is required to post highly liquid assets, such as cash or U.S. government securities, as collateral for the loan in an amount at least equal to the value of the securities loaned. Investments made with cash collateral are recognized as assets in the fund's investment portfolio. The same amount is recorded as a liability in the fund's statement of assets and liabilities. While securities are on loan, the fund will continue to receive the equivalent of the interest, dividends or other distributions paid by the issuer, as well as a portion of the interest on the investment of the collateral. Additionally, although the fund does not have the right to vote on securities while they are on loan, the fund has a right to consent on corporate actions and a right to recall loaned securities to vote. A borrower is obligated to return loaned securities at the conclusion of a loan or, during the pendency of a loan, on demand from the fund.

As of June 30, 2024, the fund did not have any securities out on loan.

Unfunded commitments – The fund invests in private equity funds that involve unfunded capital commitments, which obligate the fund to meet capital calls in the future. Payment would be made when a capital call is requested. Capital calls can only be made if and when certain requirements have been fulfilled; thus, the timing of such capital calls cannot readily be determined. As of June 30, 2024, the fund's maximum potential exposure from the unfunded commitment was \$3,366,000, which would represent .25% of the net assets of the fund should such commitment become due.

6. Taxation and distributions

Federal income taxation – The fund complies with the requirements under Subchapter M of the Internal Revenue Code applicable to regulated investment companies and intends to distribute substantially all of its net taxable income and net capital gains each year. The fund is not subject to income taxes to the extent such distributions are made. Therefore, no federal income tax provision is required.

As of and during the year ended June 30, 2024, the fund did not have a liability for any unrecognized tax benefits. The fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the statement of operations. During the year, the fund did not incur any significant interest or penalties.

The fund's tax returns are generally not subject to examination by federal, state and, if applicable, non-U.S. tax authorities after the expiration of each jurisdiction's statute of limitations, which is typically three years after the date of filing but can be extended in certain jurisdictions.

Non-U.S. taxation – Dividend and interest income are recorded net of non-U.S. taxes paid. The fund may file withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. These reclaims are recorded when the amount is known and there are no significant uncertainties on collectability. As a result of rulings from European courts, the fund filed for additional reclaims related to prior years ("EU reclaims"). Gains realized by the fund on the sale of securities in certain countries, if any, may be subject to non-U.S. taxes. The fund generally records an estimated deferred tax liability based on unrealized gains to provide for potential non-U.S. taxes payable upon the sale of these securities.

Distributions – Distributions determined on a tax basis may differ from net investment income and net realized gains for financial reporting purposes. These differences are due primarily to different treatment for items such as currency gains and losses; short-term capital gains and losses; capital losses related to sales of certain securities within 30 days of purchase; unrealized appreciation of certain investments in securities outside the U.S.; deferred expenses; net capital losses; non-U.S. taxes on capital gains and income on certain investments. The fiscal year in which amounts are distributed may differ from the year in which the net investment income and net realized gains are recorded by the fund for financial reporting purposes. The fund may also designate a portion of the amount paid to redeeming shareholders as a distribution for tax purposes.

During the year ended June 30, 2024, the fund reclassified \$84,000 from total distributable earnings to capital paid in on shares of beneficial interest to align financial reporting with tax reporting.

As of June 30, 2024, the tax basis components of distributable earnings, unrealized appreciation (depreciation) and cost of investments were as follows (dollars in thousands):

| | |
|---|-----------|
| Undistributed ordinary income | \$ 15,606 |
| Capital loss carryforward* | (101,172) |
| Gross unrealized appreciation on investments | 424,852 |
| Gross unrealized depreciation on investments | (194,496) |
| Net unrealized appreciation (depreciation) on investments | 230,356 |
| Cost of investments | 1,142,462 |

*The capital loss carryforward will be used to offset any capital gains realized by the fund in future years. The fund will not make distributions from capital gains while a capital loss carryforward remains.

Distributions paid were characterized for tax purposes as follows (dollars in thousands):

| Share class | Year ended June 30, | |
|-------------|---------------------|-----------------|
| | 2024 | 2023 |
| Class M | \$18,848 | \$18,247 |
| Class F-3 | 1,377 | 938 |
| Class R-6 | — [†] | — [†] |
| Total | <u>\$20,225</u> | <u>\$19,185</u> |

[†]Amount less than one thousand.

7. Fees and transactions with related parties

CIInc is the fund's investment adviser. American Funds Distributors®, Inc. ("AFD"), the fund's principal underwriter, and American Funds Service Company® ("AFS"), the fund's transfer agent are affiliated with CIInc. CIInc, AFD and AFS are considered related parties to the fund.

Investment advisory services – The fund has an investment advisory and service agreement with CIInc that provides for monthly fees accrued daily. These fees are based on a series of decreasing annual rates beginning with 0.618% on the first \$15 billion of daily net assets and decreasing to 0.520% on such assets in excess of \$20 billion. For the year ended June 30, 2024, the investment advisory services fees were \$8,588,000, which were equivalent to an annualized rate of 0.618% of average daily net assets.

Class-specific fees and expenses – Expenses that are specific to individual share classes are accrued directly to the respective share class. The principal class-specific fees and expenses are further described below:

Distribution services – American Funds Distributors®, Inc. ("AFD"), an affiliate of CIInc, is the principal underwriter of the fund's shares. AFD does not receive any compensation related to the sale of shares of the fund.

Transfer agent services – The fund has a shareholder services agreement with AFS under which the fund compensates AFS for providing transfer agent services to each of the fund’s share classes. These services include recordkeeping, shareholder communications and transaction processing. In addition, the fund reimburses AFS for amounts paid to third parties for performing transfer agent services on behalf of fund shareholders.

Administrative services – The fund has an administrative services agreement with CIInc under which the fund compensates CIInc for providing administrative services to Class F-3 and R-6 shares. Administrative services are provided by CIInc and its affiliates to help assist third parties providing non-distribution services to fund shareholders. These services include providing in depth information on the fund and market developments that impact fund investments. Administrative services also include, but are not limited to, coordinating, monitoring and overseeing third parties that provide services to fund shareholders. The agreement provides the fund the ability to charge an administrative services fee at the annual rate of 0.05% of the average daily net assets attributable to Class F-3 and R-6 shares. Currently the fund pays CIInc an administrative services fee at the annual rate of 0.03% of the average daily net assets attributable to Class F-3 and R-6 shares for CIInc’s provision of administrative services.

For the year ended June 30, 2024, class-specific expenses under the agreements were as follows (dollars in thousands):

| Share class | Transfer agent services | Administrative services |
|-------------------------------|-------------------------|-------------------------|
| Class M | \$ 8 | \$ – |
| Class F-3 | 2 | 29 |
| Class R-6 | —* | —* |
| Total class-specific expenses | <u>\$10</u> | <u>\$29</u> |

*Amount less than one thousand.

Directors’ deferred compensation – Directors who were unaffiliated with CIInc may have elected to defer the cash payment of part or all of their compensation. These deferred amounts, which remain as liabilities of the fund, are treated as if invested in shares of the fund or other American Funds. These amounts represent general, unsecured liabilities of the fund and vary according to the total returns of the selected funds. Directors’ compensation of \$47,000 in the fund’s statement of operations reflects \$8,000 in current fees and a net increase of \$39,000 in the value of the deferred amounts.

Affiliated officers and directors – Officers and certain directors of the fund are or may be considered to be affiliated with CIInc, AFD and AFS. No affiliated officers or directors received any compensation directly from the fund.

Investment in CCF – The fund holds shares of CCF, an institutional prime money market fund managed by Capital Research and Management Company (“CRMC”), an affiliate of CIInc. CCF invests in high-quality, short-term money market instruments. CCF is used as the primary investment vehicle for the fund’s short-term investments. CCF shares are only available for purchase by CRMC, its affiliates, and other funds managed by CRMC or its affiliates, and are not available to the public. CRMC does not receive an investment advisory services fee from CCF.

Security transactions with related funds – The fund purchased investment securities from, and sold investment securities to, other funds managed by CIInc (or funds managed by certain affiliates of CIInc) under procedures adopted by the fund’s board of directors. The funds involved in such transactions are considered related by virtue of having a common investment adviser (or affiliated investment advisers), common directors and/or common officers. Each transaction was executed at the current market price of the security and no brokerage commissions or fees were paid in accordance with Rule 17a-7 of the 1940 Act. During the year ended June 30, 2024, the fund engaged in such purchase and sale transactions with related funds in the amounts of \$3,752,000 and \$3,176,000, respectively, which generated \$1,274,000 of net realized losses from such sales.

Interfund lending – Pursuant to an exemptive order issued by the SEC, the fund, along with other CIInc-managed funds (or funds managed by certain affiliates of CIInc), may participate in an interfund lending program. The program provides an alternate credit facility that permits the funds to lend or borrow cash for temporary purposes directly to or from one another, subject to the conditions of the exemptive order. The fund did not lend or borrow cash through the interfund lending program at any time during the year ended June 30, 2024.

8. Committed line of credit

The fund participates with certain CInc affiliates in a \$1.5 billion credit facility (the “line of credit”) to be utilized for temporary purposes to support shareholder redemptions. The fund has agreed to pay commitment fees on its pro-rata portion of the line of credit, which are reflected in other expenses in the fund’s statement of operations. The fund did not borrow on this line of credit at any time during the year ended June 30, 2024.

9. Indemnifications

The fund’s organizational documents provide board members and officers with indemnification against certain liabilities or expenses in connection with the performance of their duties to the fund. In the normal course of business, the fund may also enter into contracts that provide general indemnifications. The fund’s maximum exposure under these arrangements is unknown since it is dependent on future claims that may be made against the fund. The risk of material loss from such claims is considered remote. Insurance policies are also available to the fund’s board members and officers.

10. Capital share transactions

Capital share transactions in the fund were as follows (dollars and shares in thousands):

| Share class | Sales* | | Reinvestments of distributions | | Repurchases* | | Net increase (decrease) | |
|---------------------------------|-----------------|----------------|--------------------------------|----------------|--------------------|-----------------|-------------------------|-----------------|
| | Amount | Shares | Amount | Shares | Amount | Shares | Amount | Shares |
| Year ended June 30, 2024 | | | | | | | | |
| Class M | \$17,163 | 2,613 | \$5,383 | 829 | \$(181,370) | (28,536) | \$(158,824) | (25,094) |
| Class F-3 | 27,627 | 4,258 | 1,377 | 213 | (21,325) | (3,265) | 7,679 | 1,206 |
| Class R-6 | 1 | 1 | — [†] | — [†] | — [†] | — [†] | 1 | 1 |
| Total net increase (decrease) | <u>\$44,791</u> | <u>6,872</u> | <u>\$6,760</u> | <u>1,042</u> | <u>\$(202,695)</u> | <u>(31,801)</u> | <u>\$(151,144)</u> | <u>(23,887)</u> |
| Year ended June 30, 2023 | | | | | | | | |
| Class M | \$21,372 | 3,363 | \$5,488 | 885 | \$(119,267) | (18,949) | \$ (92,407) | (14,701) |
| Class F-3 | 43,568 | 6,888 | 817 | 132 | (15,887) | (2,491) | 28,498 | 4,529 |

| | Year ended June 30, | | | | |
|--|---------------------|------|------|------|------|
| | 2024 | 2023 | 2022 | 2021 | 2020 |
| Portfolio turnover rate for all share classes ⁷ | 34% | 38% | 37% | 35% | 40% |

¹Based on average shares outstanding.

²For the year ended June 30, 2020, this reflects the impact of European Union tax reclaims received that resulted in an increase to net investment income. Had the reclaims not been paid, the Class M net investment income per share and ratio of net income to average net assets would have been lower by \$.01 and .12 percentage points, respectively. The impact to other share classes would have been similar.

³This column reflects the impact, if any, of certain reimbursements from CIInc. During some of the years shown, CIInc reimbursed a portion of transfer agent services fees and/or reimbursed a portion of miscellaneous fees and expenses.

⁴This ratio does not include acquired fund fees and expenses.

⁵Ratios do not include expenses of any Central Funds. The fund indirectly bears its proportionate share of the expenses of any Central Funds.

⁶Amount less than \$1 million.

⁷Rates do not include the fund's portfolio activity with respect to any Central Funds.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Emerging Markets Growth Fund, Inc.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the investment portfolio, of Emerging Markets Growth Fund, Inc. (the "Fund") as of June 30, 2024, the related statement of operations for the year ended June 30, 2024, the statements of changes in net assets for each of the two years in the period ended June 30, 2024, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of June 30, 2024, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended June 30, 2024 and the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of June 30, 2024 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

Los Angeles, California
August 15, 2024

We have served as the auditor of one or more investment companies in The Capital Group Companies Investment Company Complex since 1934.

We are required to advise you of the federal tax status of certain distributions received by shareholders during the fiscal year. The fund hereby designates the following amounts for the fund’s fiscal year ended June 30, 2024:

| | |
|---|------------------|
| Foreign taxes | \$0.03 per share |
| Foreign source income | \$0.17 per share |
| Qualified dividend income | 100% |
| Section 163(j) interest dividends | \$2,746,000 |
| U.S. government income that may be exempt from state taxation | \$675,000 |

Individual shareholders should refer to their Form 1099 or other tax information, which will be mailed in January 2025, to determine the *calendar year* amounts to be included on their 2024 tax returns. Shareholders should consult their tax advisors.
