### What factors influenced results

During the fund's fiscal year, the U.S. bond market posted strong returns. The U.S. Federal Reserve cut its policy rate three times in response to labor market weakness and broader economic uncertainty, helping to push short-term yields lower. Meanwhile, long-term yields remained relatively high and supported a steepening of the yield curve. Yields on corporate bonds declined but remained elevated relative to their levels over the past 15 years.

Within the fund, an underweight to Treasuries in favor of other sectors including agency mortgage-backed securities and emerging markets debt contributed positively to relative results. The fund's overweight to duration for much of the year was also additive.

In terms of detractors, the fund was positioned for a steepening of the yield curve by having an overweight position to the front-end of the curve and an underweight to the long-end. The steepening of the yield curve added to results; however, this was more than offset by the cost of maintaining the position. Security selection within asset-backed securities also detracted from returns.

### How a hypothetical \$10,000 investment has grown

Figures assume reinvestment of dividends and capital gains.

## Changes in and disagreements with accountants

On December 10, 2025, Deloitte & Touche LLP ("D&T") was dismissed and PricewaterhouseCoopers LLP was appointed as the fund's independent registered public accounting firm for the fiscal year ending December 31, 2026 audit. The change in the fund's independent registered public accounting firm was approved by the fund's board of trustees, including a majority of the independent trustees, upon recommendation of the audit committee, as part of a broader effort to update board oversight and fund operations. At no point during the fund's fiscal years ended December 31, 2024 and December 31, 2025 and the subsequent interim period through February 11, 2026, were there any disagreements between management and D&T on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure.
