

# A model portfolio for every investor

Built with six  
Morningstar "Thrilling 33" funds¹

American Funds Model Portfolios at LPL Financial are monitored by our Portfolio Solutions Committee (PSC). The models represent this team's best thinking on how to construct portfolios that pursue a wide variety of client goals.

#### Footnotes:

¹Source: Morningstar, "The Thrilling 33" by Russel Kinnel, August 13, 2025. Morningstar's screening took into consideration expense ratios, manager ownership, returns over manager's tenure and Morningstar Risk, Medalist and Parent ratings. The universe was limited to share classes accessible to individual investors with a minimum investment no greater than \$50,000, did not include funds of funds and must be rated by Morningstar analysts. Class A shares were evaluated for American Funds. Not all models include funds that made the list or all six funds. Underlying funds may change over time. The Thrilling 33 list includes American Balanced Fund, American Mutual Fund, Capital Income Builder, The Income Fund of America, The New Economy Fund and New Perspective Fund. Visit [morningstar.com](https://www.morningstar.com) for more details.

²Effective June 1, 2025, EuroPacific Growth Fund® is now EUPAC Fund.

Advisory services offered through Capital Research and Management Company (CRMC) and its RIA affiliates.

**Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.**

Model portfolios are provided to financial intermediaries who may or may not recommend them to clients. The portfolios consist of an allocation of funds for investors to consider and are not intended to be investment recommendations. The portfolios are asset allocations designed for individuals with different time horizons, investment objectives and risk profiles. Allocations may change and may not achieve investment objectives. If a cash allocation is not reflected in a model, the intermediary may choose to add one. Capital Group does not have investment discretion or authority over investment allocations in client accounts. Rebalancing approaches may differ depending on where the account is held. Investors should talk to their financial professional for information on other investment alternatives that may be available. In making investment decisions, investors should consider their other assets, income and investments. Visit [capitalgroup.com](https://capitalgroup.com) for current allocations.

Model portfolios are subject to the risks associated with the underlying funds in the model portfolio. Investors should carefully consider investment objectives, risks, fees and expenses of the funds in the model portfolio, which are contained in the fund prospectuses. Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries. Smaller company stocks entail additional risks, and they can fluctuate in price more than larger company stocks. The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings. Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds. Investments in mortgage-related securities involve additional risks, such as prepayment risk. The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds. A nondiversified fund has the ability to invest a larger percentage of assets in the securities of a smaller number of issuers than a diversified fund. As a result, poor results by a single issuer could adversely affect fund results more than if the fund were invested in a larger number of issuers. See the applicable prospectus for details.

LPL Financial LLC ("LPL") offers a variety of investment advisory programs through its own network of financial advisors, LPL's affiliate LPL Enterprise, LLC, and third-party registered investment advisers. Please refer to your investment advisory agreement to understand how you are accessing an LPL Program. In the LPL Model Wealth Portfolios (MWP) Program, LPL's Overlay Portfolio Management Group is responsible for trading and rebalancing the client's account based on the selected model portfolio(s). Client performance results in an LPL account will vary, in part due to the Overlay Portfolio Management Group's role in implementing the model. LPL and the third-party model provider are not affiliates of each other and make no representation with respect to each other.

Advisory services are offered through LPL Financial LLC, a registered investment adviser and member FINRA/SIPC. To the extent you are receiving investment advice from a separately registered investment adviser that is not an LPL affiliate, please note LPL makes no representation with respect to such entity.

*Investors should consider the investment objectives, risks, charges, and expenses of the investment company carefully before investing. The prospectus, and if available, the summary prospectus contains this and other information about the investment company. You can obtain a prospectus from the fund's website or from your financial advisor. Read carefully before investing.*

LPL Financial and Capital Group are not affiliates of each other and make no representation with respect to each other.
