Quarterly statistical update

Data as of September 30, 2025, unless otherwise noted.

This update must be used (until superseded) with any American Funds, ABLEAmerica® and CollegeAmerica® sales materials that include investment results for periods ended before the date shown. As a practical matter, financial advisors should consider including this update with all American Funds, ABLEAmerica, and CollegeAmerica sales literature. This material may be photocopied. Investment results updated monthly, and daily share price information, are available at capitalgroup.com.

CollegeAmerica and ABLEAmerica are nationwide plans sponsored by **Commonwealth Savers**

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase. Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower. For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return. You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase. Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower. For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return. You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

Where applicable, returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of American, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund and for Class C and 529-C shares reflect the deduction of a contingent deferred sales charge (1%) on shares sold within the first year of purchase. Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower. For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return. You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and/or summary prospectuses as applicable, which can be obtained from a financial professional and should be read carefully before investing. Similar information is contained in the CollegeAmerica Program Description and ABLEAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing. CollegeAmerica and ABLEAmerica are distributed by Capital Client Group, Inc., and sold through unaffiliated intermediaries.

Depending on your state of residence, there may be an in-state plan that provides state tax and other state benefits not available through CollegeAmerica (such as financial aid, scholarship funds and protection from creditors) or ABLEAmerica. Before investing in any state's 529 plan, investors should consult a tax advisor. CollegeAmerica and ABLEAmerica are nationwide plans sponsored by Commonwealth Savers.

Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds.

The return of principal for bond portfolios and for portfolios with significant underlying bond holdings is not guaranteed. Investments are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.

The value of fixed income securities may be affected by changing interest rates and changes in credit ratings of the securities.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries.

Smaller company stocks entail additional risks, and they can fluctuate in price more than larger company stocks.

Investments in mortgage-related securities involve additional risks, such as prepayment risk.

The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds.

Interests in Capital Group's U.S. Government Securities portfolios are not guaranteed by the U.S. government.

While not directly correlated to changes in interest rates, the values of inflation-linked bonds generally fluctuate in response to changes in real interest rates and may experience greater losses than other debt securities with similar durations.

Frequent and active trading of portfolio securities may occur, which may involve correspondingly greater transaction costs, adversely affecting the results

Nondiversified funds have the ability to invest a larger percentage of assets in the securities of a smaller number of issuers than a diversified fund. As a result, poor results by a single issuer could adversely affect fund results more than if the fund invested in a larger number of issuers. See the applicable prospectus for details.

Investing in developing markets may be subject to additional risks, such as significant currency and price fluctuations, political instability, differing securities regulations and periods of illiquidity, which are detailed in the fund's prospectus. Investments in developing markets have been more volatile than investments in developed markets, reflecting the greater uncertainties of investing in less established economies. Individuals investing in developing markets should have a long-term perspective and be able to tolerate potentially sharp declines in the value of their investments. Income from municipal bonds may be subject to state or local income taxes and/or the federal alternative minimum tax. Certain other income, as well as capital gain distributions, may be taxable. The Tax-Exempt Bond Fund of America will not invest in bonds subject to the federal alternative minimum tax.

State-specific tax-exempt funds are more susceptible to factors adversely affecting issuers of their states' tax-exempt securities than more widely diversified municipal bond funds.

Allocations may not achieve investment objectives. The portfolios' risks are related to the risks of the underlying funds as described herein, in proportion to their allocations.

Although the target date portfolios are managed for investors on a projected retirement date time frame, the allocation strategy does not guarantee that investors' retirement goals will be met. Investment professionals manage the portfolio, moving it from a more growth-oriented strategy to a more income-oriented focus as the target date gets closer. The target date is the year that corresponds roughly to the year in which an investor is assumed to retire and begin taking withdrawals. Investment professionals continue to manage each portfolio for approximately 30 years after it reaches its target date. Payments consisting of return of capital will result in a decrease in an investor's fund share balance. Higher rates of withdrawal and withdrawals during declining markets may result in a more rapid decrease in an investor's fund share balance. Persistent returns of capital could ultimately result in a zero account balance. Investment professionals gradually adjust a college target date portfolio over time so that it becomes more preservation-oriented. The target date is the year that corresponds roughly to the year in which the beneficiary is expected to begin taking withdrawals. The allocation strategy does not guarantee that investors' education savings goals will be met. Investors and their financial professionals should periodically evaluate their investment to determine whether it continues to meet their needs.

American Funds U.S. Government Money Market Fund may suspend 12b-1 payments under agreements between its principal underwriter and intermediaries and other entities that sell fund shares. To the extent such payments have been suspended for a certain share class, should payments subsequently commence, the fund's investment results would be lower and expenses would be higher for that share class. Please refer to the prospectus for additional information.

Class A shares of the American Funds Multi-Income Sector Fund include seed money invested by the fund's investment adviser or its affiliates. Because 12b-1 fees are not paid on these investments, expenses are lower and results are higher than they would have been if the fees had been paid. On 10/30/2020, Class 529-F-1 shares began accruing a 0.25% 12b-1 fee. If the 12b-1 fee had been in effect at inception, results from inception to 10/30/2020 would have been lower.

All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. All other company and product names mentioned are the property of their respective companies.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses.

Although American Funds Corporate Bond Fund, American Funds Inflation Linked Bond Fund (Class A); American Funds Global Balanced Fund, International Growth and Income Fund (Class R-1); and American Funds Mortgage Fund (Class R-1, R-2, R-3) have plans of distribution, fees for distribution are not paid on amounts invested in the fund by the investment adviser and/or its affiliates. If fees for these services were charged on these assets, fund results would have been lower and expenses would have been higher. When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower and net expenses higher. For more information on fee waivers and expense reimbursements, visit capitalgroup.com.

For the funds and/or share classes listed below, the investment adviser has agreed to reimburse a portion of fund expenses through the date(s) listed below, without which results would have been lower and net expenses higher.

- American Funds Core Plus Bond Fund (expiration 11/1/26)

Please refer to the fund's most recent prospectus for details.

Certain share classes were offered after the inception dates of some funds. Results for these shares prior to the dates of first sale are hypothetical based on the original share class results without a sales charge, adjusted for typical estimated expenses.

- Class 529-F-2 shares were first offered on 10/30/2020.
- Class 529-F-3 shares were first offered on 10/30/2020.
- Class C shares were first offered on 3/15/2001.
- Class F-3 shares were first offered on 1/27/2017.
- Class F-2 shares were first offered on 8/1/2008.
- Class F-1 shares were first offered on 3/15/2001.
- Class 529-C shares were first offered on 2/15/2002.
 Class 529-A shares were first offered on 2/15/2002.
- Class 529-F-1 shares were first offered on 9/9/2002.

Results for certain funds with an inception date after the share class inception also include hypothetical returns because those funds' shares sold after the funds' date of first offering. View dates of first sale and specific expense adjustment information at capitalgroup.com. Class C shares convert to Class A shares after 8 years and Class 529-C shares convert to Class 529-A shares after 5 years. Prior to 6/30/2020, Class C shares converted to Class F-1 shares and Class 529-C shares converted to Class 529-A shares after 10 years.

- 1. When applicable, returns for less than one year are not annualized, but calculated as cumulative total returns.
- 2. Data for the funds, share classes, and/or periods listed below reflect certain sales charge deductions.
 - Maximum of 5.75% for equity funds and most Portfolio Series funds (529-A, ABLE-A) (prior to 6/30/2020)
 - Maximum of 4.75% for bond funds (529-A) (prior to 1/10/2000)
 - Maximum of 4.25% for most College Target Date funds (529-A) (prior to 6/30/2020)
 - Maximum of 3.75% for most fixed income funds (529-A) (prior to 6/30/2020)
 - Maximum of 3.75% for Intermediate Bond Fund of America (A, 529-A) (from 1/10/2000 to 10/31/2006)
 - Maximum of 3.75% for Limited Term Tax-Exempt Bond Fund of America (A) (from 1/10/2000 to 10/31/2006)
- 3. The 30-day SEC yield for a fund of funds is calculated using the income earned by the fund over the past 12 months, which is then translated to a daily rate that is used to calculate the 30-day yield. The calculation for bond funds, however, reflects income earned over the past 30 days. As a result, during changing rate environments, the SEC yield for a fund of funds, whose underlying funds are primarily bond funds, may meaningfully differ from that of its underlying bond fund holdings. (American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio)
- 4. Expense ratios are as of each fund's prospectus/characteristics statement, as applicable, available at the time of publication. The expense ratio for American Funds® Core Plus Bond Fund is estimated.
