

# American Funds® Multi-Sector Income Fund

Income

Class F-2 shares

MIAYX

Q2 fund fact sheet

Data as of June 30, 2025, unless otherwise noted.

**CAPITAL GROUP®** | **AMERICAN FUNDS®**

## Key information

### Objective:

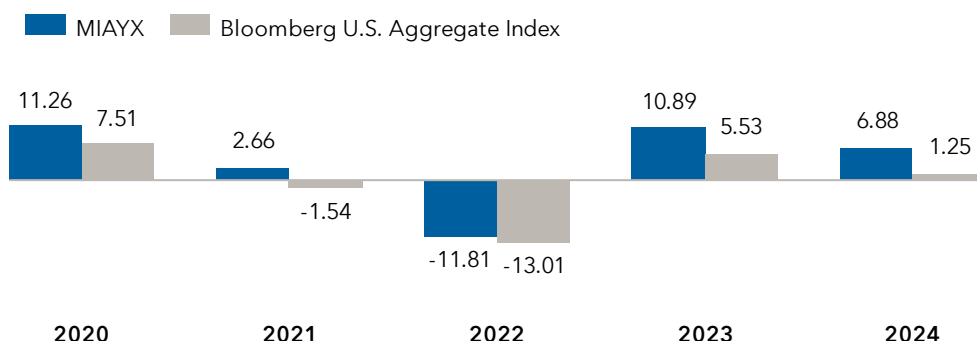

The fund's primary objective is to provide a high level of current income. Its secondary objective is capital appreciation.

### Distinguishing characteristics:

An income-oriented strategy that invests in a broad range of traditional, high-income asset classes. The fund is designed to provide less volatility and equity correlation than a standalone high yield or emerging market debt fund, without meaningfully reducing income. With a focus on fundamental analysis coupled with a rigorous relative value approach to sector allocation, the fund aims to generate high income across market cycles.

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Investing for short periods makes losses more likely. Prices and returns will vary, so investors may lose money. For current information and month-end results, visit [capitalgroup.com](https://capitalgroup.com).

## Calendar-year total returns (%)

## Investment results

Data for periods ended 06/30/2025 (%)	Cumulative total returns <sup>5,6</sup>			Average annual total returns <sup>5,7</sup>			
	3M	YTD	1Y	3Y	5Y	10Y	Lifetime
MIAYX at net asset value (NAV)	2.58	4.18	8.47	7.69	4.11	–	4.78
Bloomberg U.S. Aggregate Index	1.21	4.02	6.08	2.55	-0.73	–	1.30
Morningstar Multisector Bond Category Average	2.03	3.89	7.62	6.16	3.59	–	3.06

Fund's annualized 30-day SEC yield: 5.9% (at NAV as of 06/30/2025)

## Key facts

**Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.**

**Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and/or summary prospectuses, which can be obtained from a financial professional and should be read carefully before investing.**

This material must be preceded or accompanied by a prospectus or summary prospectus for the fund(s) being offered.

The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds.

Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds.

The return of principal for bond portfolios and for portfolios with significant underlying bond holdings is not guaranteed. Investments are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries.

Rating exposure (%)	
Investment grade	53.4
AAA/Aaa	2.3
AA/Aa	14.3
A	15.3
BBB/Baa	21.6
Below investment grade	38.0

B	12.7
CCC/Caa & below	3.0
Unrated	6.8
Other <sup>8</sup>	0.7
Cash & equivalents <sup>9</sup>	1.1

Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor's, Moody's and/or Fitch, as an indication of an issuer's creditworthiness. For most funds, unless otherwise noted below, if agency ratings differ, a security will be considered to have received the highest of those ratings, consistent with applicable investment policies. Securities in the Unrated category have not been rated by any of the rating agencies referenced above; however, the investment adviser performs its own credit analysis and assigns comparable ratings that are used for compliance with applicable investment policies.

Top fixed income issuers (%)	
UMBS	3.5
U.S. Treasury	2.4
Charter Communications	1.2
Federal Home Loan Mortgage	1.2
PG&E	1.1
Edison International	1.1
Fannie Mae	1.0

Medical Properties Trust	0.8
Venture Global Partners II	0.8

There have been periods when the results lagged the index(es) and/or average(s). The indexes are unmanaged and, therefore, have no expenses. Investors cannot invest directly in an index. Source: Bloomberg Index Services Limited. BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P. and its affiliates (collectively "Bloomberg"). Bloomberg or Bloomberg's licensors own all proprietary rights in the Bloomberg Indices. Neither Bloomberg nor Bloomberg's licensors approves or endorses this material, or guarantees the accuracy or completeness of any information herein, or makes any warranty, express or implied, as to the results to be obtained therefrom and, to the maximum extent allowed by law, neither shall have any liability or responsibility for injury or damages arising in connection therewith.

All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. All other company and product names mentioned are the property of their respective companies.

Portfolios are managed, so holdings will change. Certain fixed income and/or cash and equivalents holdings may be held through mutual funds managed by the investment adviser or its affiliates that are not offered to the public.

Totals may not reconcile due to rounding.

Investment results assume all distributions are reinvested and reflect applicable fees and expenses.

When applicable, results reflect fee waivers and/or expense reimbursements, without which they would have been lower and net expenses higher. For more information on fee waivers and expense reimbursements, visit [capitalgroup.com](http://capitalgroup.com).

1. The distribution rate reflects the fund's past dividends paid to shareholders and may differ from the fund's SEC yield which reflects the rate at which the fund is earning income on its current portfolio of securities. The distribution rate reflects fee waivers and/or expense reimbursements in effect during the period. Without waivers and/or reimbursements, it would be reduced.
2. Expense ratios are as of each fund's prospectus/characteristics statement, as applicable, available at the time of publication.
3. Sector breakdown "other" may include equities, rights, warrants, preferreds, convertibles, forwards, FX (foreign exchange) options, and other uncategorized securities.
4. Includes cash, short-term securities, other assets less liabilities, and may include accrued income. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.
5. When applicable, returns for less than one year are not annualized, but calculated as cumulative total returns.
6. YTD (year-to-date return): For the period from January 1 of the current year to the date shown or from inception date if first offered after January 1 of the current year.
7. Index and/or average lifetime is based on inception date of the fund.
8. Rating exposure "Other" may include equities, rights, warrants, preferreds, convertibles, forwards and FX (foreign exchange) options.
9. Includes cash, short-term securities, other assets less liabilities, and may include accrued income. It may also include investments in money market or similar funds managed by the investment adviser or its affiliates that are not offered to the public.

Information is calculated by Morningstar. Due to differing calculation methods, the figures shown here may differ from those calculated by Capital Group.

**Bond Statistic Average Yield to Worst:** Lower of Yield to Maturity or the bond's total return if put or call options are exercised prior to maturity but no default occurs. **Total Return Swap:** A total return swap (TRS) is a contract between a total return payer and total return receiver. The payer usually pays the total return of agreed security to the receiver and receives a fixed/floating rate payment in exchange. The agreed (or referenced) security can be a bond, index, equity, loan, or commodity. **Bond Statistic Effective Duration in Years:** Effective duration is a duration calculation for bonds that takes into account that expected cash flows will fluctuate as interest rates change. **Morningstar Multisector Bond Category Average:** Multisector-bond portfolios seek income by diversifying their assets among several fixed-income sectors, usually U.S. government obligations, U.S. corporate bonds, foreign bonds, and high-yield U.S. debt securities. Morningstar Category averages are designed to represent the average return of funds within their category over time. The daily category averages are calculated daily and reconstituted monthly. **Distribution Rate 12-Month:** The income per share paid by the fund over the past 12 months to an investor from dividends (including any special dividends). The distribution rate is expressed as a percentage of the current price. **Credit Default Swap Index:** The credit default swap index (CDX) is a benchmark financial instrument made up of credit default swaps (CDS) that have been issued by North American or emerging markets companies. Credit default swaps act like insurance policies offering a buyer protection in case of the borrower's default. **Yield Annualized 30-Day SEC:** The 30-day SEC yield reflects the rate at which the fund is earning income on its current portfolio of securities calculated according to the standardized SEC formula; when applicable, it reflects the maximum sales charge. If shown, a net yield reflects fee waivers and/or expense reimbursements in effect during the period. Without waivers and/or reimbursements, the yield would be reduced. Gross yield does not adjust for any fee waivers and/or expense reimbursements in effect. **Morningstar Category:** In an effort to classify funds by what they own, as well as by their prospectus objectives and styles, Morningstar developed Morningstar Categories. While the prospectus objective identifies a fund's investment goals based on the wording in the fund prospectus, the Morningstar Category identifies funds based on their actual investment styles as measured by their underlying portfolio holdings (portfolio and other statistics over the past three years). **Bloomberg U.S. Aggregate Index:** Bloomberg U.S. Aggregate Index represents the U.S. investment-grade fixed-rate bond market. This index is unmanaged, and its results include reinvested dividends and/or distributions but do not reflect the effect of sales charges, commissions, account fees, expenses or U.S. federal income taxes.
